

Inclusive Needs Assessment for School Administrators

The National Center on Health, Physical Activity and Disability (NCHPAD) is conducting a survey to gather information from administrators about the needs of their school's adapted physical education program. This survey will help us to create resources, training, and other materials that are specific to the administrator's needs to support inclusive programs. We are asking our colleagues and partners to help us distribute this survey through your network, listservs, newsletters, or social media outlets. The survey will be open until October 8th. Please click on the link below to begin the survey.
